

One-Stop Service

Receive comprehensive support for hardware, software, and design solutions when you purchase the PabloX series.

Exclusive Plug-in for Blender

Easily create animations using built-in shapes and logos within minutes using our user-friendly software.

World-Class Show Support

Our experts' experience organizing and setting up drone and fireworks shows can also assist you put on world-class shows for your audience.

Professional Training

Become a proficient drone show operator with our systematic training programs.

PABLO AIR

PabloX

PabloX introduces a fresh line of PABLO AIR drone products designed specifically for captivating drone art shows. The 'X' in PabloX symbolizes the silhouette of a drone, embodying the boundless potential within our product range. With PabloX, we invite you to unleash your imagination and paint masterpieces in the sky.

PABLO AIR's Drone Art Show

PABLO AIR's Drone Art Show goes beyond the boundaries of conventional drone performances through precisely ignited aerial fireworks, setting a new benchmark for drone-based entertainment content.

Korea's Only Pyro Drone Art Shows

A signature performance by PABLO AIR, combining drone light shows with aerial fireworks

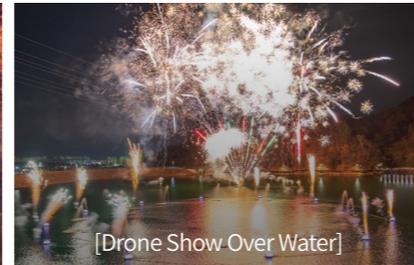

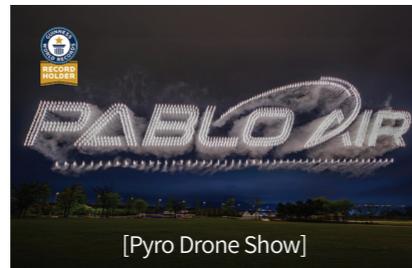

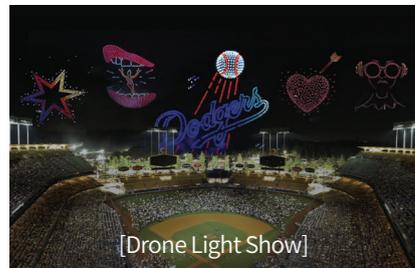

Guinness World Records Holder

A unique Guinness World Record achieved through the simultaneous ignition of 1,068 Pyro Drones

Unlimited Scalability

Capable of integrating with diverse content formats, enabling smoke drone airshows, tower-based Drone shows, water-based drone performances

PABLO AIR's drone shows captivate audiences with their unique technology and stunning visual impact, **creating a grand and unforgettable experience**

Signature Product

F40 A dedicated Drone for Pyro Drone shows, holding Guinness World Records

- Delivers highly immersive drone performances by combining LED lighting with aerial fireworks
- Ensures robust flight stability through waterproof design and strong wind resistance
- Recognized with the iF Design Award for its distinctive design elements
- High-output 50W lighting with precise illumination at 24 frames per second

Dimension (W*D*H)	420*420*165mm	Weight	1,060g
Flight Time	12min (With Payload)	Max Payload	340g
Flight Speed	10m/s (Recommended)	Wind Resistance	6m/s(With Payload)
Operating Temperature	-5 to 40°C	LED	50W (270 Lumens)
Water Resistance	IPX4 level	Communication	Wifi: 5.8Ghz / LoRa: 900Mhz

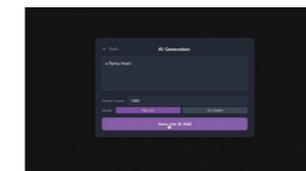

A20 Korea's first unmanned autonomous water cluster drone

- Enables customizable water-based performances utilizing fountains, fireworks, and LED lighting
- Robust structural design capable of withstanding the strong recoil forces generated by fireworks ignition
- Equipped with GNSS-based precision positioning, enabling execution of complex route configurations
- Supports extended operation of over 8 hours with a high-capacity battery

Dimension (W*D*H)	1,000*1,000*400mm	Max Payload	20kg
Max Speed	5knot (2.5m/s)	Operating Temperature	0 to 40°C
Weight	19.6kg (With Battery)	Operating Time	500 min (With Max Payload 8 hours)
Battery	LiPo (6S/22,000mAh x 2)		

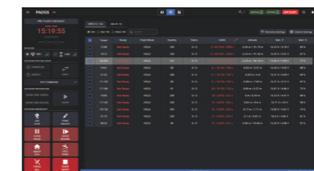

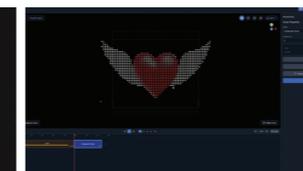

Software Platform

NeoPicasso

AI-powered Pyro drone show designer for creating advanced aerial performances

- Enables fast and intuitive creation of shows for users of all
- Secures safe flight paths through AI-based optimized route calculation
- Supports 3D simulation reflecting maps, audience viewpoints
- Delivers signature performances integrating fireworks and LED effects in a single workflow

PADSS

All-in-one drone art show software supporting the entire performance lifecycle

- Full lifecycle support, from design to post-event
- Ensures operational stability through pre-validation of route collisions and performance visualization
- Enables a wider range of performance effects starting from the takeoff phase
- Delivers high-resolution performances at up to 5K quality
